Address: Bhopal, Madhya Pradesh

EDUCATION

Gurukul Kangri Vishwavidyalaya

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.5)

Haridwar, Uttarakhand

Aug. 2018 – May 2022

EXPERIENCE

Product Development Lead (Founding Engineer)

Nukkad Foods

Dec 2023 – Present

Bhopal, Madhya Pradesh

- Architected the complete system design for a hyper-local delivery network, overseeing the deployment of **3 distinct mobile applications** (User, Partner, Rider).
- Leveraged **GitHub Copilot** and advanced AI models to accelerate development cycles, reducing time-to-market for Android & iOS builds.
- Developed the **Core Business Logic** and Admin Analytics Dashboard, enabling real-time decision-making and automated support systems.

Independent Full Stack Engineer

Remote

Feb 2023 – Dec 2023

Freelance / Self-Employed

- Rapidly prototyped and deployed high-performance web applications by combining advanced algorithmic strategies with AI-driven coding workflows.
- Built **USDaily24**, a news aggregator integrating the NYT API and Google AdSense, utilizing AI for content automation and user engagement.
- Architected automated content pipelines for financial news, utilizing Python scripts to synchronize data across multiple social platforms.

Backend Developer

Connexo Asia Limited

Jan 2023 – Feb 2023

Remote

- Developed scalable backend microservices using **Java Spring Boot**.
- Collaborated with the frontend team to integrate secure RESTful APIs for the client-side administrative portal.

Project Engineer Intern

Wipro Technologies

June 2022 – Sept 2022

Remote

- Contributed to enterprise-level web applications using JavaScript, HTML, and CSS.
- Completed **Microsoft Azure Fundamentals** certification, gaining expertise in cloud deployment strategies.

TECHNICAL PROJECTS

Forexyy Automated Infrastructure (Backinsta) | *Python, FFmpeg, MongoDB* | [Github](#)

- Architected a fully autonomous content engine that aggregates financial news from forexyy.com and synthesizes it into short-form video content (Reels/Shorts) using text-to-video logic.
- Engineered a simultaneous cross-platform publishing backend for YouTube and Instagram, achieving viral organic reach of **100,000+ views** on individual platforms.
- Implemented a centralized media database to track asset lifecycles, ensuring efficient content recycling and zero-downtime deployment.

Nukkad Mobile Ecosystem (3 Apps) | *Flutter, Dart, Firebase* | [Play Store Link](#)

- Designed, developed, and deployed three distinct mobile applications: **User App, Restaurant Partner App, and Rider Delivery App**.
- Launched successfully on both **Google Play Store and Apple App Store**, ensuring cross-platform compatibility and native performance optimization.
- Implemented complex real-time features including live geolocation tracking for riders and WebSocket-based order status updates.

Nukkad Admin Portal | *React.js, Node.js, Analytics* | [nukkadfoods](#)

- A comprehensive analytics dashboard for managing the food delivery ecosystem.
- Features include real-time order tracking, automated validations, and role-based security.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), C++, Python, Dart, HTML5, CSS3

Frameworks: Flutter, React.js, Next.js, Node.js, Express.js, Spring Boot, FFmpeg

System Design: Microservices, API Architecture, Scalable Backend Strategy

AI Tools: GitHub Copilot, AI-Assisted Development, AWS (EC2, S3),GOOGLE CLOUD, Render,Vercel, Git

Databases: MongoDB, MySQL, PostgreSQL, Firebase

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals | [Certificate](#)

Problem Solving through C/C++ (NPTEL, IIT Madras) | [Certificate](#)

Data Structures and Algorithms using Python (NPTEL) | [Certificate](#)

Autonomous Mobile Robot using Arduino UNO | [Certificate](#)
